

Shahezad Mustaqueem Khan

.NET Full Stack Developer | ASP.NET MVC | ASP.NET Core | Web API

9075819645 | khanshahezad2002@gmail.com | Kurla West, Mumbai, India

Portfolio:- [Shahezad Khan — .NET Developer](#)

SUMMARY

Motivated .NET Developer with hands-on experience building web applications using C#, ASP.NET MVC 5, ASP.NET Core, and ASP.NET Web API. Skilled in designing efficient SQL Server and MySQL database solutions, writing optimized LINQ and Entity Framework queries, and delivering responsive front-end interfaces with HTML, CSS, JavaScript, and Bootstrap. Strong grounding in object-oriented programming, clean coding practices, and security fundamentals, with a proactive, detail-oriented approach to solving backend challenges. Committed to continuous learning and staying current with modern .NET development trends to build robust, scalable, and secure applications.

EXPERIENCE

.NET Developer (2 YEARS) <i>Equitec Software Technology Pvt. Ltd.</i>	Sep 2024 – Present <i>Mumbai, India</i>
- Collaborated closely with clients to understand and translate business requirements into tailored, functional software solutions. - Designed and developed responsive web applications using ASP.NET MVC, integrating front-end and back-end functionality to deliver seamless, full-stack user experiences. - Built and maintained backend logic in C# following ASP.NET MVC architecture, applying object-oriented programming principles for clean, maintainable code. - Wrote and optimized SQL Server queries to support application data operations and improve overall performance.	

EDUCATION

Savitribai Phule Pune University BCA (Bachelor of Computer Applications) • CGPA: 8.37 • 2023 Higher Secondary (12th) — Maharashtra Board • 50.52% • 2020 Secondary (10th) — Maharashtra Board • 83.00% • 2018	India
---	-------

TECHNICAL SKILLS

Languages:	C#
Frameworks:	ASP.NET MVC 5, ASP.NET Core, ASP.NET Web API, Entity Framework, EF Core, LINQ, ADO.NET
Databases:	Microsoft SQL Server 2022, MySQL
Front-End:	HTML, CSS, JavaScript, Bootstrap
Tools:	Visual Studio 2022, GitHub
Operating Systems:	Windows

PROJECTS

Phoenix – Online Second-Hand Mobile Marketplace HTML, CSS, JavaScript, Bootstrap, PHP, MySQL
- Built a full-stack web platform enabling users to buy and sell second-hand mobile phones through a secure, seamless marketplace experience. - Implemented mobile listing functionality allowing sellers to add detailed descriptions, upload images, and set competitive prices. - Developed a search feature enabling buyers to quickly find mobile phones by name. - Integrated the Razor Pay payment gateway to handle secure transactions between platform and sellers. - Designed user profile and account management functionality for a personalized buyer/seller experience. - Used MySQL to manage user information, listings, and transaction records, with PHP handling server-side logic.
