

Name: Shahezad Mustaqueem Khan

Email: khanshahezad2002@gmail.com

Mobile: 9075819645

Current Location:- Kurla West, Mumbai India

Key Skill:- C#, SQL Server, ASP.NET MVC 5 , .Net Core, Html, CSS, JavaScript, Bootstrap, Entity Framework, EF Core, LINQ Query, Ado.net,ASP.NET WEB API.

Technical Skills: -

Programming Language	C#.NET
Web Technologies	ASP.Net MVC 5, .Net Core, ASP.NET Web Api Basic
Database	SQL Server 2022, MySQL
Front-end Technologies	HTML, CSS, JavaScript
Front-end Frameworks	Bootstrap
Operating Systems	Windows
IDEs	Visual Studio 2022, GitHub

Professional Summary

With a strong passion for .Net developer, I bring a solid foundation in .Net Core Application development with C# programming along with Asp.Net MVC, Asp.Net Core Html, CSS, JavaScript and Angular with basic knowledge. My proficiency in SQL allows me to write efficient database queries and work with systems like MySQL and SQL Server. My commitment to best practices, security fundamentals, and continuous learning empowers me to contribute effectively to your team. With a proactive problem-solving mindset, I'm dedicated to delivering high-quality code, collaborating with fellow developers, and staying up to date with the latest trends and technologies in backend development. I'm excited to embark on this journey as a backend developer and contribute to creating robust, scalable, and secure web applications that drive positive user experiences.

Skills:

- Programming Languages:
 - can develop and maintain web applications using Asp.Net MVC 5,
 - Familiar with C# and its use in backend development.
 - Also Familiar With HTML, CSS & JavaScript
- Backend Development:

- Created web applications using Asp.Net MVC 5.

- Understanding:

-Excellent understanding of OOP (Object Oriented Programming) concepts.

- Database Management:

- Proficient in writing SQL queries, optimizing database performance, and working with SQL Server and MySQL.

- Familiarity with SQL Server for managing database

- Problem-Solving:

- Skilled in debugging and troubleshooting backend issues, with a strong analytical mindset.

- Enthusiastic about learning and applying algorithmic thinking to solve complex problems.

- Continuous Learning:

- Dedicated to staying updated with the latest backend development trends, technologies, and best practices.

- Communication:

Skilled in effectively conveying ideas, concepts, and technical information in English, ensuring clarity and comprehension.

- Logical Understanding: -

Proficient in logical programming, adept at designing and implementing complex logic to efficiently solve problems and optimize processes.

Experience:

.NET Developer

Equitec Software Technology Pvt. Ltd., Mumbai

September 2024 - Present

- **Client-Centric Development:** Collaborated closely with clients to understand and fulfill their specific requirements, ensuring tailored software solutions that align with their business objectives.
- **Full-Stack Web Development:** Designed and developed responsive web applications using ASP.NET MVC, integrating both front-end and back-end functionalities to deliver seamless user experiences.

Education Qualification & Academic Project

<u>Degree/Grade</u>	<u>Board/University</u>	<u>Score</u>	<u>Passing Year</u>	
BCA (Bachelor of Computer Application)	Savitribai Phule University	CGPA: 8.37	2023	
Higher Secondary (12 Standard)	MAHARASHTRA BOARD	50.52%	2020	
Secondary (10 Standard)	MAHARASHTRA BOARD	83.00%	2018	

1. Phoenix: Online Second-Hand Mobile Marketplace: -

Phoenix is a comprehensive web application designed to facilitate the buying and selling of second-hand mobile phones. The platform provides users with a seamless and secure environment to connect, ensuring that both buyers and sellers can transact mobile devices at attractive prices.

- **Key Features:**

- **Mobile Listings:** Phoenix allows users to list their second-hand mobile phones for sale. Sellers can provide detailed descriptions, upload images, and set competitive prices, creating an appealing listing for potential buyers.
- **Mobile Search:** Buyers can search for mobile phones based on the name of the mobile.
- **Secure Transactions:** Phoenix integrates the Razor Pay payment gateway to handle transactions. Sellers can require buyers to make a payment during the
 - listing process
- **User Profiles:** Phoenix includes user accounts, allowing individuals to create profiles.
- **Technologies Used:**
 - HTML, CSS, JavaScript, Bootstrap for the frontend interface.
 - PHP for server-side scripting.
 - MySQL for the database to store user information, listings, and transaction records.

Extra Certifications:- Full Stack .net developer Certificate from Naresh IT Hyderabad.
